## INSURANCE WAR ENDED.

The Companies Doing Business at Lexington Have Paid Up.

Forty-one fire and life insurance companies have already taken out license there for another year, indicating that the Kentucky and Tennessee Board of Underwriters have about abandoned their war on Lexington to force into effect the new schedule of rates.

It is the general opinion here that the compact companies will acquiesce, and that the indelictables found by the Grand Jury against the members of the compact will be quashed.

The woman's edition of The Press-Scimitar realized the net sum of \$329.07.

One of the factors of a church in Lexington says that that city is corrupt, and wants a Citizens' ticket brought out. The chances are he'd vote against it.

John Street, a Fleming county moonshiner, has sent word to the officials on his trail that it would be a wise idea to bring along their coffins ere attacking his mountain retreat.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflammation of the mucous lining of the Eustachian tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and if it is not treated quickly deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflammation of the mucous surface.

We will give one Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Cures. Send for circular.

INDIANAPOLIS, Ind., March 12.—Pandemonium reigned in the house at midnight Monday, when the time came for the veto message of the governor on the bill removing the estate house custodian and supplanting him with a republican.

The bill was received by the governor at 11:55 Thursday night, and his veto must have been received Monday night, before midnight, else the act would become a law without his signature.

An intimation reached the members Monday that he would wait until the last minute, so that some of them schemed to defeat him at his own game by wailing Private Secretary King as he had been the instigator and preventing him from delivering it until the time was up. The speaker was not let in, and the hold-up was to be unclouded.

When the time came for the private secretary to appear he was captured as he was about to leave the elevator on the second floor, with the speaker packed, they kept him riding up and down for some minutes.

Finally some friend pried the door open and the secretary, who, with Custodian Griffin, was protesting and calling angrily for help, pushed his way out.

Mr. King burst for the first door, but a pack of members held it firmly, so he shouted and kicked, but to no effect. Then he tried for the middle door and again this was found to be held firmly. But his calls here could be heard and there was a rush of democrats to the door to his help.

The house, which was packed, was in a tumult. Everybody, including a large number of ladies, was standing on desks and chairs. Finally some one helped the secretary to push the door open and he tried to read, but the howl of cries drowned him.

The struggle had continued until it was about 12 o'clock and the speaker, who had been tapping for order with all his might, looked up to see that in order that he might declare the house adjourned, but some one had sent word to Engineer Cain, and he stopped the clock from the electric apparatus in the cellar.

It was six minutes of 12 o'clock, but his watch and that of numerous others showed midnight. There was no help for the speaker, however, for he could not be held and the time for the adjournment came without his having accomplished the veto.

The house records contain no reference to a veto, and the courts have ruled that there is no power to go behind the journal.

The veto was the most sensational that ever occurred in the state house. Custodian Griffin was wild with excitement. In the struggle glass was broken, a woman fainted and vast quantities of temper ran riot, but without serious trouble to anybody.

The speakers justify their acts on the ground that one piece of peanut politics provoked another.

The speaker adjourned the house sine die.

Representative Adams, of Park county, and his private secretary, were severely hurt in the melee.

Shooting Sea Question.

OTTAWA, Ont., March 12.—Another acute stage in the Behring sea difficulty is engaging the attention of the British, United States and Canadian governments. Since the refusal of the American congress to vote the compensation agreed upon, the Canadian government has been urging the home authorities that the indisposition of the United States to carry out the understanding justifies the refusal of Great Britain to assent to the enforcement of the restrictions upon sealing during 1895. So far no answer has been received to these representations.

Miners Demands Granted.

PITTSBURGH, Pa., March 12.—Eight thousand river coal miners in this district will start to work Tuesday, the operators having granted the sixty-five cents per ton demanded by the men. The operators claim, however, that the advance is not permanent, and that it would not have been granted but for the favorable condition of the river for shipping coal. The Railroad Coal Operators' association held a meeting Monday and decided not to pay any extra fifty cents as long as New York and Cleveland Gas Coal Co. pays its miners that price.

Firmans Finally Settled.

DICKINSON, S. D., March 12.—The northern passenger train on the International &amp; Great Northern railway ran into an open switch Thursday morning, fatally wounding Fireman Taylor and badly injuring Engineer J. A. Killen. The engine turned completely over, pinning the fireman to the ground and while in this position the steam literally boiled him alive. None of the passengers were hurt, although they received a severe shaking up. The switch is supposed to have been turned by some malicious person.

Collision on the Ocean.

NEW YORK, March 12.—A dispatch from London to the Morning Advertiser says two unknown steamers were in collision Monday night off Beachy Head. One of the steamers, believed to be sailing signified for assistance.

Star's Kneels Out Again.

LONDON, March 12.—In the Starling cricket Monday evening, the last day of the season, the Starling team of first round. The round lasted but two minutes.

## WORTH DEAD.

The Famous Man-Dressmaker, of Paris, is No More.

PARIS, March 12.—Worth, the famous dressmaker, of Paris, is dead. No establishment anywhere in the world was so well known as his.

He set the fashion for all countries. A Worth dress, especially in America, has long been the envy of all women of wealth and fashion.

M. Worth was born at Bourne, in Lincolnshire, in 1805, and his kind of fashion was therefore not, as is generally supposed, a Frenchman, but an Englishman. He was employed for some years by a dressmaker firm on Oxford street London, and thence proceeded to Paris.

M. Worth has made dresses for all the queens of Europe, with the single exception of Queen Victoria, and for women of fashion the world over.

His father was a solicitor, with a good private fortune, which he lost in speculation. At the age of 13 years young Worth went to Swan &amp; Edgars, in London, and remained there for seven years, during which time he did all the work of an ordinary apprentice.

Having heard much of the French fashion he determined to go to Paris, but on his arrival there was for some time out of a situation; ultimately, however, he succeeded in getting into Godefrida's, where he remained twelve years.

This firm was noted for silks, which were woven by workmen in their own homes.

There was at this time no house in Paris which sold material and made it up as well, and this combining of the two branches struck M. Worth as a good idea, and he obtained permission from his principals to try it.

This he did, beginning with cloaks, and a train that he designed gained a medal in 1845.

At the present time his establishment employs about 1,500 persons and turns out between 6,000 and 7,000 dresses and between 3,000 and 4,000 cloaks a year.

M. Worth was assisted by his sons, M. Gaston Worth taking sole charge of the counting house and M. Jean Worth the technical part of the business, in which he bids fair to be a worthy successor of his father.

OUR FINANCES.

Gold Balance Claims. As to the Customs and Other Receipts.

WASHINGTON, March 12.—The treasury gold reserve, the close of the day, Monday stood at \$20,063,608, a gain since Sunday of \$290,633.

The treasury condition for the first third of March shows that receipts have aggregated \$9,325,000 and the expenditures \$11,324,000, or an excess of the expenditures over receipts of \$2,000,000.

An element of uncertainty not heretofore entering into treasury calculations has got to be taken into account, the large sums of money appropriated by congress in the deficiency appropriation bill and sundry civil appropriation bills. Many of these items are made immediately available, and the payment Monday of \$615,000 on the "civil and miscellaneous accounts" shows that some of them have begun to reach the cashier's desk.

The customs receipts show a continued and sustained improvement, being for the fiscal year up to date \$105,877,000, or nearly \$1,000,000 more than for the same time last year.

Internal revenue receipts are \$5,000,000 in excess of this time last year, but improvement in both sources of receipts must be shown for the last third of the fiscal year or government receipts for the entire fiscal year will fall considerably below the estimates.

MUST BE RETURNED.

Income Are Liable, Whether Foreign or Domestic—Important Ruling.

WASHINGTON, March 12.—The treasury officials have made an important ruling in respect to the liability under the income law of dividends received from corporations. It is held that dividends received by a resident of the United States from a foreign corporation or otherwise, doing business wholly without the United States and having its principal place of business outside of the United States, must be returned as income by the persons receiving the same.

THE YORKTOWN'S WHEREABOUTS.

WASHINGTON, March 12.—The Yorktown arrived at Chemung Saturday.

Cleveland's Hunting Trip.

CAPE HENRY, Va., March 12.—The Violet, with the president and party on board, anchored near Cape Hatteras Monday afternoon. On account of the bad weather since his departure the president has had only one day's hunting as yet, and that was last Friday, when he killed sixteen brant and one large goose.

Nicholson Is a Law.

INDIANAPOLIS, March 12.—Gov. Matthews attached his signature to the Nicholson bill at 8 o'clock Monday afternoon, and immediately on the bill was finally at rest. There were no special incidents connected with the signing of the bill. No one clamored for the paper which the signature had been attached.

Half Million Pounds of Gold.

NEW YORK, March 12.—The steamship Umbria brought Monday for account of the bond syndicate \$398,000 in gold. The steamship landed, now on her way here, has \$225,000 gold consigned to August Belmont &amp; Co. of the bond syndicate, so this week's foreign bond payments promise to be liberal.

The Points of Peace.

PEKIN, March 12.—The Chinese government, through the United States minister, Edwin Davis, has already agreed upon the points in the peace conference regarding the indemnity. The indemnity is to be in the form of territory and money indemnity, the amount to be agreed upon by the envoys.

Some of veterans, question yourself: Are you a son of a veteran? Do you believe in keeping green the memories of our fathers and their sacrifices for the maintenance of the Union? Are you in favor of aiding the Grand Army of the Republic in caring for their helpless and disabled veterans to extend aid and protection to their widows and orphans, to perpetuate the memory and history of their heroic deed and the proper observance of Memorial Day? Do you believe in maintaining patriotism and love of country among all the people of our land, and to spread and sustain the doctrine of national rights, universal liberty and justice to all? If so, you are in exact accord with the principles and objects of the Sons of Veterans, U. S. A. Therefore, why not make application for membership to a Camp of this Order? Why not organize a Camp and assist in the noble work?

WEEKLY PUBLIC LEDGER.

**Did U?**

Did you ever think that relatives or friends who have moved to distant places—gone West, perhaps, to grow up with the country—are always dead to hear from their "Old Kentucky Home?" And did it ever occur to you that a single copy of THE MAYSVILLE REPUBLICAN—the weekly edition of THE PUBLIC LEADER—contains more home news than you could embrace in a hundred ordinary letters? And did it ever strike you that you can send the paper to your relatives and friends for a whole year at less cost than you can write a letter every week? Besides, don't you think a year's subscription to THE REPUBLICAN would be a present highly appreciated by those at a distance? Suppose you try it and hear what they have to say on the subject.
